Paper size	8.25″ x 8.25″ to 13″ x 19″			

*Based on 2 cuts and 2 slits
**May vary due to variations in paper and power supply

1. Patented Tri-Suction Feeder

The patented Tri-Suction Feeding Mechanism reduces risks of double feeds and mis-feeds drastically, therefore preventing paper jams inside and enhancing productivity.

2. Intuitive Touch Screen UI

The AeroCut NanoMax is equipped with a color touch screen. Cut mark registration and image shift & stretch compensation function help an operator to make fine adjustments to digitally printed stocks.

3. Versatile InstaSet Bar System

The unique InstaSet Bar indicates and aligns slitter positions accurately and can be easily adjusted manually without tools. Built-to-order bars are available for custom sized jobs, at lower cost compared to "slitter cartridges".

MAX-imize your business card productivity.

AeroCut NanoMax

ADDITIONAL FEATURES:

- Quick & easy tool-free slitter position settings with InstaSet Bar and new Fine Adjustment Knob
- Skew adjustment
- Cut-mark registration
- Double feed detection
- Intuitive touch screen operation
- Image shift & image stretch compensation
- 31 Preset jobs with 4 Factory InstaSet Bars included
- 80 custom job memories
- Easy access to slitter units and paper exit
- Quick and easy maintenance

Better, Faster, Stronger

The AeroCut NanoMax has an enhanced motor driver enabling the machine to finish heavier stocks, at faster speeds. The production speed is now 19-43% faster than the previous model, depending on the application.

Quick-Release Rollers

The AeroCut NanoMax has new quick-release rollers and components, making cleaning easy. In case of a paper jam, this feature assists in a quick recovery.

Unbox and production starts

Thanks to the preset jobs already installed in the machine, business card production can be started right after unboxing and plugging it in. All you need is prepared prints, according to the preset templates.
