DESTROYIT®

Destroyit® paper shredders have set the industry standards for over half a century. Cutting shafts are constructed entirely of hardened steel and are covered by a lifetime warranty (super micro-cut shafts are covered for one year). In addition to their innovative, functional design, the exclusive SPS™ safety features put them among the safest paper shredders in the world.
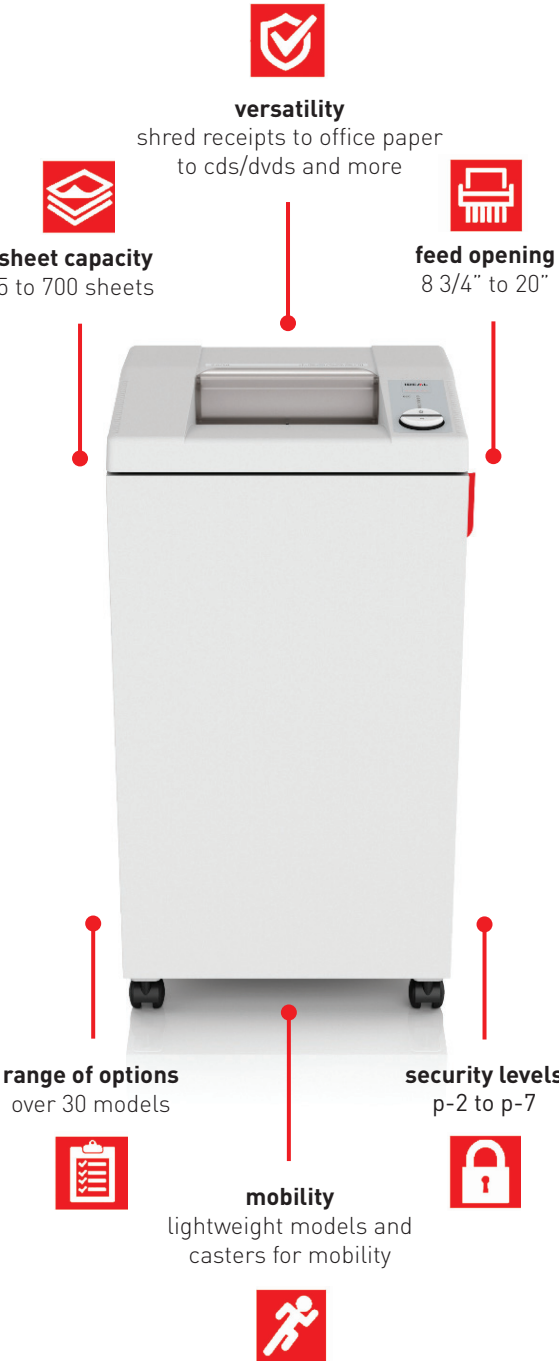

Deskside shredders put effective data security right at your side. Unlike cheaper brands, they are built with the highest quality materials and construction standards to provide years of dependable service.

Centralized Office models are commercial grade, high volume machines specifically designed to shred large amounts of material daily. Ideally, they are placed in a common area and shared by employees.

A High Capacity in-house shredding program designed around Destroyit is the most secure and economical way of efficiently disposing large amounts of sensitive documents.

DESTROYIT® PAPER SHREDDERS ARE DESIGNED FOR COMPANIES THAT WON'T SETTLE FOR ANYTHING LESS THAN THE WORLD'S BEST SHREDDER.

versatility
shred receipts to office paper to cds/dvds and more

sheet capacity
5 to 700 sheets

feed opening
8 3/4" to 20"

range of options
over 30 models

security levels
p-2 to p-7

mobility
lightweight models and casters for mobility

CUT WITH CONFIDENCE

VRCut is a groundbreaking PC software solution designed to automate the cutting workflow by promoting an efficient and error-free cutting process from start to finish. VRCut intelligently bridges the gap between pre-press and the finishing process, allowing operators of any experience level the ability to cut with confidence on select Triumph cutters.

With Smart Layout Assistant and Remote PC Controller Technology

FOLDERS

MBM's folder line features machines for corporate applications as well as high-volume postpress operations. Our tabletop folders offer the perfect combination of speed, precision, and ease of use, making them ideally suited for small offices, schools, and corporate environments.
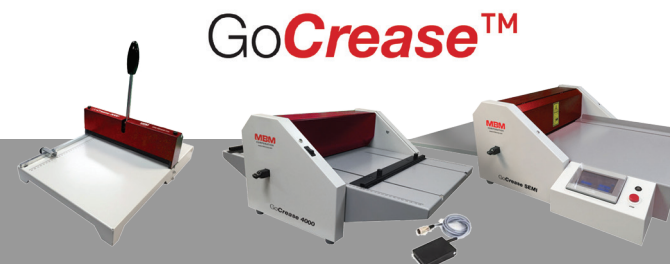

BOOKLETMAKERS

Speed and versatility are the hallmarks of MBM bookletmakers. Our Sprint 3000 enjoys a solid reputation for performance and dependability. The SF2 bookletmaker utilizes wire-fed stitching technology previously found only in larger systems costing up to three times more.

CREASERS

Perfect for digital applications, MBM GoCrease creasers allow documents printed on heavy or coated stock to be creased prior to folding, creating a crisper, more accurate fold with no cracking.

GoCrease™

SUPPORT PRODUCTS

MBM's line of print finishing support products includes paper joggers, pressure sealers, drills, and everything needed for the ultimate finishing system.

COLLATORS

The FC 10 automatic collator is one of the most versatile collators on the market. Reliable and easy to use, it interfaces with a variety of bookletmakers including the MBM Sprints and SF2 series.
