

VR*CUT* Ready TRIUMPH

VR*CUT* software is bundled with these world renowned Triumph Cutters; known for their safety, power, precision, and ease of operation.

Triumph 5260

Automatic clamp and IR safety light beam on front table.

Cutting width, inches	20-3/8
Cutting height, inches	3
Narrow cut, inches	1-3/8
Length behind blade, inches	20-3/8
Electrical	120V 20amp

5260

Triumph 5560/5560 LT

Hydraulic blade, clamp drive, and IR safety light beam on front table. 5560 LT equipped with front and rear air tables (available by special order).

Cutting width, inches	21-5/8
Cutting height, inches	3-3/4 (3-5/8 false clamp)
Narrow cut, inches	1-1/4 (2-3/8 with false clamp)
Length behind blade, inches	22-7/16
Electrical	120V 20amp

5560

Triumph 6660

Automatic clamp and IR safety light beam on front table.

Cutting width, inches	25-1/2
Cutting height, inches	3
Narrow cut, inches	1
Length behind blade, inches	24
Electrical	120V 20amp

6660

Triumph 7260

Hydraulic clamp, 7" touch pad control module, and IR safety light beam on front table.

Cutting width, inches	28
Cutting height, inches	3
Narrow cut, inches	3/4 (3-1/2 with false clamp)
Length behind blade, inches	28
Electrical	220V, 3 phase, 20amp

7260

CUT WITH CONFIDENCE

A revolutionary tool to create and cut documents with ease on select Triumph cutters

LYT**ROD**
SOFTWARE

CUT WITH CONFIDENCE

VRCut is a groundbreaking PC software solution designed to automate the cutting workflow by promoting an efficient and error-free cutting process from start to finish. VRCut intelligently bridges the gap between pre-press and the finishing process, allowing operators of any experience level the ability to cut with confidence on select Triumph cutters.

The VRCut solution consists of two independent modules that work together. The Impose module creates PDF documents formatted specifically to work with the VRCUT Controller module. The Controller module connects directly to the Triumph cutter moving the back gauge and visually guiding operators through the cutting sequence.

TWO MODULES, ONE INTEGRATED WORKFLOW

VRCUT IMPOSE

The VRCut Impose module is a standalone PC imposition software that transforms your artwork into PDFs laid out specifically for optimized cutting on the VRCut enabled Triumph cutter. The software places a template barcode and innovative visual markers that enable an automated cutting process. Consolidate your workflows by taking advantage of the software's data merge feature.

Business card artwork is imposed into a PDF print file.

VRCUT CONTROLLER

The VRCut PC Controller module connects directly to your Triumph cutter for automatic back gauge movement and provides a step-by-step visual interface. The operator simply scans the document barcode to load the corresponding template and artwork to start the job. The software gives the operator visual indication of paper orientation, paper rotation between cuts, when to discard scraps, and how to process cut sheets. This first of its kind software simplifies the task of cutting, which allows operators with all levels of experience to **cut with confidence!**
