

DESTROYIT® 4003

max
45
sheets

← 16" →

High capacity office shredder with a spacious feed opening for large paper sizes and Electronic Capacity Control for continuous feeding without jams. Cross-cut and super micro-cut models are equipped with an automatic oiler.

Security level P-2	1/4" strip-cut (6 mm)
Sheet capacity*:	43-45

Security level P-4	3/16 x 1 1/2" cross-cut (4 x 40 mm)
Sheet capacity*:	34-36

Security level P-5	1/4 x 2" cross-cut (2 x 15 mm)
Sheet capacity*:	16-18

Security level P-7	1/32 x 3/16" super micro-cut (.8 x 5 mm)
Sheet capacity*:	8-9

*Sheet Capacity is based on 70 gsm paper, and are normally only achievable in ideal situations, so heavier duty paper will shred less sheets. In many cases the capacities quoted are theoretical as conditions vary and are dependent on operator usage, age and condition of machines, how regularly cutters are oiled, type and quality of paper etc. so realistic throughputs can be as low as half that of the theoretical capacities quoted.

Product characteristics

SPS - (Safety Protection System) package: patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; EASY-SWITCH - intelligent control element indicating the operational status of the shredder with varying color codes and back-lit symbols; automatic reverse and power cut-off (avoids paper jams); automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; double motor protection; ZERO ENERGY standby mode: Complete, automatic disconnection from power supply after 15 minutes.

Automatic oil injection ensures optimal performance at all times (cross-cut models); Photo cell controlled automatic start and stop. High-quality, cutting shafts from special hardened steel with lifetime guarantee (strip and cross-cut models). Convenient 16" feed opening for continuous forms and large formats. ECC+ (Electronic Capacity Control): indication of the used sheet capacity during the shredding process. P-2 and P-4 models suitable for shredding the most common CDs/DVDs. Quiet but powerful single phase motor for continuous operation. Sturdy twin drive system with fully enclosed gear box housing. High quality wooden cabinet, mobile on castors. Convenient environmentally-friendly shred bin (no disposable shred bags required).

Specifications

Shred volume, gallons	44
Feed opening, inches	16
Electrical requirements, volts	115
Maximum horsepower	1 3/4
Product Dimensions (D x W x H), inches	21.6 x 25.2 x 37.2
Product weight, pounds	166 (SC), 179 (CC & SMC)

DESTROYIT® 4003

Features

SOLID STEEL CUTTING SHAFTS

Robust and durable: high-quality cutting shafts with lifetime guarantee* under conditions of fair wear and tear.

EASY-SWITCH

Ease of operation: intelligent multifunction switch element with integrated optical signals indicating the operational status. Additional "emergency switch" function.

ECC+ - ELECTRONIC CAPACITY CONTROL

This electronic feature indicates the used sheet capacity during the shredding process to avoid paper jams.

PATENTED SAFETY FLAP

Extremely safe: electronically controlled safety flap in the feed opening to keep fingers, ties and other objects away from the cutting shafts.

CONVENIENT SHRED BIN

The environmentally-friendly shred bin can be removed easily and cleanly from the cabinet. The bin can be used with or without disposable shred bags.

AUTOMATIC OIL INJECTION

The cutting shafts are automatically lubricated while shredding, ensuring optimal performance (cross-cut & SMC models).
