

# DESTROYIT® 4002

Heavy duty, 1.75 horsepower motor makes it a perfect fit for continuous, high volume shredding environments. Cross-cut models are equipped with an automatic oiler.

**A SOLID STEEL CUTTING SHAFTS**  
High grade, hardened steel cutting shafts are milled in our Balingen factory and warranted for life.\*

**B ECC CAPACITY INDICATOR**  
Patented Electronic Capacity Control (ECC) indicator monitors sheet capacity levels during operation to prevent jams.

**C EASY SWITCH**  
Multifunction control element uses optical signals to indicate the operational status, and functions as an emergency stop switch.

**D ENVIRONMENTALLY FRIENDLY BIN**  
Durable, lightweight shred bins can be used with or without disposable bags.

\*Super micro-cut shafts are covered by a 1 year warranty.

# DESTROYIT® 4002

**Comprehensive SPS safety package:** Easy Switch control element uses illuminated color codes and symbols to indicate operational status and functions as an emergency stop switch; patented, electronically controlled, transparent safety shield in the feed opening; automatic power cut-off when cabinet is opened or shred bin is full; automatic reverse and power cut-off when overfed; double protection against overheating; Zero Energy Consumption sleep mode cuts off power supply after 30 minutes of inactivity.

Automatic start and stop controlled by photo cell. Patented Electronic Capacity Control (ECC) indicator prevents jams by monitoring sheet capacity levels during operation. Automatic oil injection ensures optimal performance at all times (cross-cut models). High quality, hardened steel cutting shafts take staples, paper clips, credit cards, and CDs / DVDs (P-2 model). Lifetime warranty on the cutting shafts. Quiet and powerful single phase motor rated for continuous operation. Sturdy Twin Drive System with fully enclosed gear box housing. High quality wooden cabinet mounted on casters. Convenient, environmentally friendly shred bin does not require disposable shred bags.

<b>Security level P-2</b>	.25" strip-cut (6 mm)
<b>Sheet capacity</b>	32 - 35*
<b>Security level P-5</b>	.093" x .625" cross-cut (2 x 15 mm)
<b>Sheet capacity</b>	14 - 16*

\* Sheet Capacity is based on 70 gsm paper, and are normally only achievable in ideal situations, so heavier duty paper will shred less sheets. In many cases the capacities quoted are theoretical as conditions vary and are dependent on operator usage, age and condition of machines, how regularly cutters are oiled, type and quality of paper etc. so realistic throughputs can be as low as half that of the theoretical capacities quoted.

## Specifications:

<b>Shred volume</b>	44 gallons
<b>Feed opening</b>	16"
<b>Electrical requirements</b>	115 volts
<b>Maximum horsepower</b>	1.75
<b>Dimensions (D x W x H)</b>	23.25" x 25.25" x 38.25"
<b>Shipping weight</b>	239 lbs. (sc), 240 lbs. (cc)
