

GoCrease[®] SEMI

The GoCrease SEMI is a semi-automatic, programmable creasing and perforating machine with an 18" working width. Featuring a touch screen display, it allows fast, accurate settings for creases or perforations, storing up to five pre-set applications.

A BUILT FOR QUALITY
The heavy-duty metal construction is built to endure everyday use with no wear.

B SQUARE BAR HEAD
Easily perforate by changing the blade and rotating the square head, to the smooth side.

C DIGITAL DISPLAY
Touch screen for quick, easy adjustment of crease distance and number.

D MAGNETIC STOP
Adjust the magnetic stop on the delivery table to match the paper size.

GoCrease[®] SEMI

- Semi-automatic, programmable machine with touch screen for quick, accurate settings
- Designed for creasing and perforating with an 18" working width
