TRIUMPH®

Top-quality materials, state-of-the-art manufacturing, and stringent quality controls guarantee durability. A Triumph cutter is designed to last for years and consistently perform as well as it did on the day you purchased it.

Print shops today are navigating a landscape of increasing digital printing, short print runs, quick job changes, and extremely short-term delivery times. Triumph paper cutters, with cutting lengths from 16.8" up to 28", are designed to meet these evolving requirements. They offer a flexible and cost-effective solution, with an ease of operation and cutting results that remain consistently perfect.

Exclusive safety.

SCS (Safety Cutting System) is a combination of innovative design features which ensure the highest standards of safety. They protect the operator during the cutting process and while performing routine maintenance.

SCS Features:

- Hinged, transparent front safety guard (locks during cutting process on manual cutters; electronically controlled on electric models) or front IR safety light curtain.
- Transparent safety cover on rear table
- Main switch and safety lock with key.
- Electronically controlled, two-hand EASY-CUT operation.
- Patented IDEAL safety drive.
- Automatic blade return from every position.
- Automatic clamp return from every position (on cutters equipped with automatic clamps).
- Disc brake for instant blade stop.
- Blade and cutting stick can be changed without removing covers.
- Blade changing device covers cutting edge of blade.
- Blade depth adjustment from outside of machine.

Easy to use touch pad

Extremely convenient: Electronic, programmable control module for the power back gauge with multi-lingual touch pad. 99 programs with 99 steps in each program can be stored (models 5255-7260).

Optical cutting line

The optical cutting line indicator with bright LED's ensures perfect alignment of cutting marks (models 4315 and above).

Easy cut blade activation bars

Patented EASY-CUT blade activation bars provide true two-hand operation (models 4315 and above).

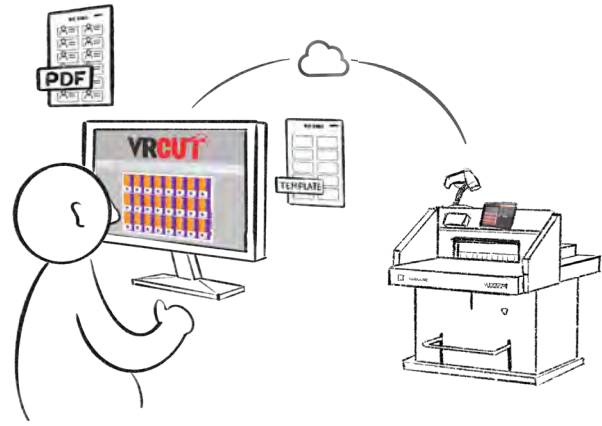

IR safety curtain

The IR light beam safety curtain covers the work area to ensure the highest level of operator safety (models 5260, 6660, 5560, 7260).

VRCUT[™]

CUT WITH CONFIDENCE

VRCut is a groundbreaking PC software solution designed to automate the cutting workflow by promoting an efficient and error-free cutting process from start to finish.

VRCut intelligently bridges the gap between pre-press and the finishing process, allowing operators of any experience level the ability to cut with confidence on the Triumph 7260, 5560/5560 LT, 6660, and 5260 cutters.

VRCUT[™] Ready TRIUMPH
cutters now come with everything you need, right out of the box!

After registering your VRCut license you can request a complete VRCut Controller Hardware Kit at no cost (free shipping included within the United States).
