# FOLDERS
1800S

The 1800S automatic air-feed paper folder by MBM features an ultrasonic double feed sensor, detecting double feeds on any sheet type. With adjustable air suction feed, memory for custom folds, and a user-friendly control panel, it ensures precise, smooth folding for various paper stocks.

A **MEMORY KEYS**
The touch panel sets up 18 custom folds for standard paper sizes, and 3 custom folds for non-standard paper sizes at the touch of a button.

B **VARIABLE SUCTION**
The air pressure select knob allows adjustment of air suction for different weights of paper.

C **PAPER FEED / SEPARATOR PRESSURE ADJUSTMENT**
Paper feed pressure adjustment helps the machine to feed wider range of stocks, and the separator pressure adjustment prevents double feeds.

FOLDERS
1800S

- Automatic air feed folder perfectly suited for digital work
- 18 custom folds for standard paper sizes, and 3 custom folds for non-standard paper sizes can be stored into memory
- Ultrasonic double-feed sensor can detect double feeds
- Removable folding roller for easy maintenance, adjustable folding roller pressure, and a spring-loaded feed angle adjustment dial
- Top cover opens and closes in two easy steps
- Air adjustment knob easily assessable without disruption when the top cover is open
- Silver top metal sheet for a smoother paper run and better electric conductivity
- Top feed, adjustable air suction feed system, suitable for digitally printed and coated stocks
- The control touch panel includes 4 digit counter with batch and total functions
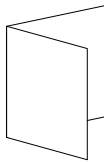

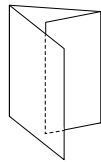

Optional micro-perforator and scorer:

These heads hold rotary tools and can be mounted on the optional perforation/scoring unit.

Optional blades for perforation head

| Single | Letter | Zigzag | Double parallel | Fold-out | Gate |

Specifications:

Speed (sheets per hour)	18,000*	Electrical requirements	120 V, 60 Hz
Paper size	4.5″ x 8.25″ to 13″ x 19″	Dimensions (D x W X H)	24″ x 49″ x 23″
Paper weight	16 to 80 lbs / 218 gsm*	Shipping weight	189 lbs
Sheet capacity	800		

* May vary due to variations in paper and power supply
** Speed based on half-fold application and 20 lb bond paper stock
