

# DESTROYIT® 4001

Attractively priced office shredder with electronic capacity control, 16" feed opening and large shred bin volume.

- A SOLID STEEL CUTTING SHAFTS**  
High grade, hardened steel cutting shafts are milled in our Balingen factory and warranted for life.
- B ECC+ CAPACITY INDICATOR**  
This electronic feature indicates the used sheet capacity during the shredding process to avoid paper jams.
- C EASY SWITCH**  
Multifunction control element uses optical signals to indicate the operational status, and functions as an emergency stop switch.
- D ENVIRONMENTALLY FRIENDLY BIN**  
Durable, lightweight shred bins can be used with or without disposable bags.

# DESTROYIT® 4001

**Comprehensive SPS safety package:** patented, electronically controlled, transparent safety flap in the feed opening as additional safety element; EASY-SWITCH - intelligent control element indicating the operational status of the shredder with varying color codes and back-lit symbols; automatic reverse and power cut-off (avoids paper jams); automatic stop if the shred bin is full; electronic door protection via a magnetic proximity switch; double motor protection; ZERO ENERGY standby mode: Complete, automatic disconnection from power supply after 15 minutes.

Photo cell controlled automatic start and stop. High quality, hardened steel cutting shafts take staples, paper clips, and credit cards (strip-cut and 4 x 40 cross-cut models take CDs / DVDs). Convenient 16" feed opening for continuous forms and large formats. ECC+ (Electronic Capacity Control): indication of the used sheet capacity during shredding process. Quiet but powerful single phase motor for continuous operation. Sturdy twin drive system with fully enclosed gear box housing. High quality wooden cabinet, mobile on castors. Convenient environmentally-friendly shred bin (no disposable shred bags required).

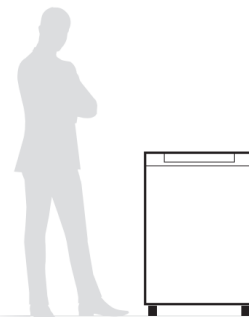

Security level P-4	.187" x 1.5" cross-cut (4 x 40 mm)
Sheet capacity	25 - 28*

Security level P-5	.093" x .625" cross-cut (2 x 15 mm)
Sheet capacity	13 - 16*

\* Sheet Capacity is based on 70 gsm paper, and are normally only achievable in ideal situations, so heavier duty paper will shred less sheets. In many cases the capacities quoted are theoretical as conditions vary and are dependent on operator usage, age and condition of machines, how regularly cutters are oiled, type and quality of paper etc. so realistic throughputs can be as low as half that of the theoretical capacities quoted.

## Specifications:

Shred volume	44 gallons
Feed opening	16"
Electrical requirements	115 volts
Maximum horsepower	1
Dimensions (D x W x H)	21.5" x 25.25" x 37.25"
Shipping weight	174 lbs.
